## West Sussex Local government Pension Scheme: Divestment for Palestine!

People up and down the country have been organising to pressure County Councils to examine their local government pension schemes, (LGPS) investments and disinvest from those companies that are helping to stock Israel with arms and support the illegal occupation.

Last July, as the result of a Freedom of Information request to West Sussex County Council, it's been revealed that of the companies invested in by WSCC, 10 are complicit with:

- supplying arms to Israel
- contributing to the military infrastructure
- supporting financially Israel's genocide and illegal occupation.

West Sussex County Council already know! who the complicit companies are. And that's why we're calling on them to divest from those 10 companies that are the enablers of Israel's human rights abuse and genocide.
